Cotton Candy Machine

Our easy-to-use SPIN MAGIC 5 machine has a complete new head design that produces cotton candy continuously and smoothly.

Spin Magic 5 with aluminum bowl

New High-Performance Head will not clog like ordinary ribbon style heating elements. All metal design gives your superior durability over those using plastic parts.

Heavy-Duty Motor (1/12 horsepower) operates at 3400 RPM for fast cotton candy delivery. The motor is completely shielded from sugar to extend its life and allow easy clean-up.

Professional Controls gives the operator the flexibility to make perfect cotton candy under any conditions.

Stainless Steel Cabinet delivers commercial quality and durability.

Voltage Meter indicates the optimum settings for producing the best cotton candy and maximizing sugar to floss yield.

The Spin Magic 5 was fully beta tested at 10 sites during the 4th quarter of 2007 to give you the assurance that this machine is ready to go to work for you.

Roll-Top Bubble. Customers say our design is superior. Durable polyester(PETG) for high impact resistance. Clear visibility. Sliding roll door for easy access when making floss and full protection when sitting idle. Fits 25" - 26" diameter bowls.

Spin Magic 5 with plastic bowl

Cotton Candy Carts. All metal design, custom fit for Paragon machines.

Spoke-Wheel Cart

Rolling Stand

PRODUCT SPECIFICATIONS
